1. INTRODUCTION - DELEGATION MANUAL – PURPOSE

This Delegation Manual is designed to set out clear unambiguous delegations that can be applied consistently across South Eastern Local Health District (SESLHD) on all matters that impact on the operations of the services and facilities that comprise SESLHD. It provides guidance and direction on the authorisation and quantification of expenditure, staff related matters and other non-financial matters.

The SESLHD Delegation Manual reflects the principles in NSW Health Policy Directive, Delegations of Authority PD2012_059. In applying their delegations, SESLHD staff are to comply with this Policy Directive.

The manual is intended to be a 'ready reference', easy-to-use document, to assist staff to comply with their obligations. The manual must be considered and followed in-line with the applicable policies for each delegation topic area.

Delegations should reflect the management structure of SESLHD and its facilities, with delegated officers being identified or grouped into categories that reflect the organisational structure of the LHD. Each delegated officer within a particular "group" can only exercise the delegation in relation to their own area of responsibility. For example, this manual allows a number of groups of delegated officers to authorise overtime; however, an individual officer only has delegation to authorise overtime for staff within their own unit/area of responsibility.

The SESLHD Board delegates its authority to the SESLHD Chief Executive (CE) who operates under the authority of the Health Services Act 1997.

All figures are in Australian dollars (AUD) and exclude Goods and Services Tax (GST). That is, the delegated amounts are the figures, excluding any applicable GST on the transaction.

2. FACILITIES AND SERVICES COVERED BY THE SESLHD DELEGATIONS MANUAL

The Delegations Manual is designed to apply to all the operations of the units, facilities and services that comprise the SESLHD on a day to day basis.

A list of all facilities and services covered by this manual are outlined below:

- Prince of Wales Hospital and Health Services;
- St George Hospital and Health Services;
- Sutherland Hospital and the Garrawarra Centre;
- Royal Hospital for Women;
- Sydney / Sydney Eye Hospital;
- Mental Health Services;
- Gower Wilson Memorial Hospital;
- SESLHD Community Health Centres and its operations; and
- SESLHD Executive Offices and District services

This manual does not apply to the Affiliated Health Organisations (AHOs); namely Calvary, War Memorial or Scarba that are located within SESLHD boundaries.

This manual should be considered in conjunction with the SESLHD organisational / functional structure chart and may be amended to align with any structural changes if required.

3. DELEGATE RESPONSIBILITIES

- It is important to understand that delegations are made to positions, not to persons, and are specific to the position's role. The delegation to a position is specific and is not transferable.
- Delegates are to exercise any powers, authorities, duties and functions delegated to them in a responsible, consistent and cost effective manner.
- Delegates must act in accordance with any conditions imposed on the relevant delegation and consistent with NSW Government, NSW Health and SESLHD policies.
- Delegates are responsible for knowing their classification and their level of delegation and for informing themselves and keeping up to date on any changes to the delegations arising from changes in law, NSW Government or NSW Health policy or revisions of delegations or other directions issued

by SESLHD.

- Delegates shall only exercise delegations in relation to their own areas of administrative or operational responsibility and cost centres relevant to their position and will not approve matters for an officer over whom they have no responsibility.
- Reference shall be made to the Goods and Services Procurement Policy Manual for procurement requirements: for example, the mandatory use of Government Contracts and purchasing dollar thresholds in relation to quotation and tendering requirements.
- Goods and services shall not be ordered / purchased without an official purchase order (PO) number unless subject to NSW Health's Excluded PO Accounts List or purchased in compliance with Procurement Card Policy.
- All purchases are subject to available funding and budgetary constraints.
- When approving expenditure delegates must:
 - Consider the dollar limit of their delegation for the category of expenditure;
 - Satisfy themselves that funds are available, within existing budget, to meet any expense being approved under delegation;
 - Consider any additional costs that will result from the expenditure, including for example direct recurrent costs, indirect operating costs, life cycle and future replacement costs, and any other associated expenses or matters that would impact on the financial management and performance of the organisation; and
 - Obtain any necessary additional approvals where the expenditure will be from, or supplemented by, Special Purpose and Trust (SP&T) Funds (e.g. from trustees), as outlined in NSW Health policies and this manual.
- Delegates must not approve "self-related matters" or matters that raise potential probity issues in relation to the exercise of the delegation. For example delegates must not:
 - Approve any expenditure in relation to a matter where they have a pecuniary interest, or where there is a real, potential or perceived conflict of interest.
- When approving expenditure, delegates must not:
 - Split items / orders to bring them within any limit of their position's delegation and administrative responsibility;
 - The dollar amounts specified in the Delegations Manual relates to the total cost of any project regardless of the number of orders necessary and excludes GST;
 - Requisition or purchase items from an alternate vendor where a NSW Government, NSW Health or SESLHD contract exists for the goods or services to be procured from an existing / approved vendor; and
 - Requisition or purchase non-catalogued items where a similar product exists in the NSW Health Item Master File.
- Requisitions for purchasing and / or leasing of motor vehicles should be processed through Manager, Fleet Services or appropriately delegated officer.
- The dollar limits for capital works relate to approved capital works programs.
- Delegates should consult SESLHD officers with specialty product knowledge (for example, IT officers, biomedical engineering, clinical products advisors, engineers if building works or capital works are required) to confirm cost effective procurement which is in accordance with SESLHD practices.
- Delegated officers are to sign all documents (requisitions, orders, contracts etc.), with their position title, as that title is set out in the Delegations Manual. Where the officer is acting, or relieving, in a position they should also indicate their "acting" role in the signing of the document and abide by the delegations associated with that role.
- Limits on spend and contract signing authority are based on the total life of the contract, including

renewals, variations and extensions (collective value).

- Variations of contract including extensions must be approved by at least the same level of authority as the original contract was approved
- Delegates may not re-delegate any authority conferred on them by the SESLHD Delegations Manual to any other officer.
- The rules of delegation apply whether requisitions are online or paper-based.
- All officers acting or relieving in a position with delegation that is higher than their substantive role or for different cost centres, are required to complete an Acknowledgement Form (Appendix 4) to cover the acting period when greater than 2 months. The form must be completed for each acting period undertaken by the employee. Once received, the acting delegation will be activated within the Finance system for the applicable period to enable approvals to occur.

Note: *Delegations of an officer are automatically assumed by their supervisor; except where an over-riding separation of responsibilities prevails.*

4. CATEGORIES OF DELEGATED OFFICERS

SESLHD has grouped its delegates into levels from 1 to 5. Appendix 1 should be referred to for a full list of Delegated Officers, however the following is a general guide of the roles that fall within each level:

Level 1	Chief Executive (as delegate of SESLHD Board)
Level 2	Members of the Executive Team that report into the Chief Executive.
Level 3	Specific direct reports of Level 2
Level 4	Level 2 / Level 3 direct reports – all other
Level 5	Department Heads and Managers with cost centre accountability

Assumption that approvals from the Ministry of Health have been submitted by the CE as delegated by the Board, notification will be made to the Board and Sub-Committees if required.

In addition to these formal levels of Delegated Officers, the CE has extended delegation privileges to authorised staff who have been issued with a purchasing card (PCard). PCards are encouraged for General Fund G&S / RMR purchases where the transactions are non-clinical, low value and frequent and / or regular in nature.
